EDUCATION

University of Southern California

Master of Science in Computer Science (MSCS - General)

Cumulative GPA: 3.35/4.00 till Semester-1 (Analysis of Algorithms and Database Systems)

California, USA

Aug 2023 - May 2025

Shreemati Nathibai Damodar Thackersey Women's University

Institution: Usha Mittal Institute of Technology

Bachelor of Technology in Computer Science and Technology (B.Tech in CS)

Cumulative GPA: 9.46/10.00

Mumbai, IN

Aug 2019 - Jun 2023

SKILLS

Programming Languages: C, C++, Python, GNU Octave, JavaScript, PERL

Technologies: HTML, CSS, Bootstrap, ReactJS, MERN Stack, Natural Language Processing, Cloud Firestore, Django Rest Framework, SQLite, Docker, Oracle Database

Others: Git/GitHub, Figma, MS Office

WORK EXPERIENCE

Oracle | Server Technology Intern

Remote

Domain - Database and Transactions

Jun 2022 - Jul 2022

- Studied the lifecycle of a transaction and analysed redo-log files of transactions in Oracle Database.
- Developed a tool to analyse the Redo dumps automatically in Perl using Regex pattern.
- Minimised detection time of anomalies in Redo dumps by 80%.

Webminix | Software Development Intern

Remote

Domain - Web Development

Oct 2021 - Mar 2022

- Led the backend team to work on APIs to work with NodeJS enhancing production by over 25%.
- Accelerated development time by 20% by implementing (Scrum) Agile Methodology.

FirstSalary Foundation | Full Stack Development Intern

Remote

Domain - Web Development

Sept 2021 - Feb 2022

- Collaborated on UI/UX planning and designing to enhance user experience by 30%.
- Created 6 APIs for Product Marketplace and accessed the APIs from different views.

PROJECT AND RESEARCH EXPERIENCE

Natural Language Processing of Safety Reports in Nuclear Power Plants | Datafirst Fall 2023

Sep 2023 - Dec 2023

Domain - Machine Learning

- Created a Gold-Standard dataset of 130 issue statements compiled from a 932 page report.
- Trained state-of-art LLMs to give correct trait matching of the issue statement with 95% confidence.
- Implemented Logistic Regression and Seed Word Model as baseline models for classification.

Picturescue | Major Project (Final Year B.Tech) | [View Publication](#)

Aug 2022 - Mar 2023

Domain - Cryptography

- Combined SteganoGAN and AES-GCM to build a flask API.
- Created an android application leveraging Flutter and Firebase authentication to serve as an Image Vault.
- Integrated the API in the application to provide three-layer security.

Unvoiced | Mini Project (Pre-Final Year B.Tech)

Feb 2022 - Apr 2022

Domain - Deep Learning

- Conducted literature survey on various existing models for transcription of visual cues to interpret spoken languages.
- Model is trained on a structured dataset MIRACLE-VC1.
- ROI detected by Haar-Cascade to convert to grayscale and normalise the data.
- Training model was trained using a total of 8 layers of Convolutional Neural Network.

Gift of the Gab | InternExperience | [View Project](#)

Apr 2021 - Sep 2021

Domain - Web Development

- Planned the UI for the website and designed the front end with ReactJs and React-Bootstrap.
- Built Database models using Django Rest Framework and SQLite, built APIs and dockerized the Web Application.

LEADERSHIP AND VOLUNTEERING EXPERIENCE

Professional and Entrepreneurship Development Director of Rotaract Club of New Kalyan

Dec 2022 - Jul 2023

Club Lead and Core Team Member of Google Developer Student Clubs, UMIT, SNDT

Aug 2020 - Jul 2022

Student Representative of course Computer Science and Technology

Aug 2019 - Sep 2021
